25X1A

1. On 22 October 1952 representatives of General Services Administration and Public Buildings Service, [REDACTED], were contacted by the undersigned in company with [REDACTED] who is presently located at [REDACTED]. A site (483 acres) had previously been acquired 13 miles north of [REDACTED]. Plans and specifications are being prepared by the Engineering Construction Branch. Public Buildings Service, Regional Office, was requested and agreed to:

25X1A

- a. Contract for engineering services for topographical survey and soil absorption test; also obtain certain power rates; and make recommendations as to well location on the site.
- b. Enter negotiations for out leasing of existing apple orchard, grazing or farm rights of property under the antennas.
- c. Indicate proposed fence location and prepare tentative estimate of cost.
- d. Prepare a list of bidders, advertise, and receive bids (construction contract).

2. An inspection of the site was made and a request made to PBS representative that property lines be definitely established, and marked as required by contract with surveyor who prepared the original boundary line survey.
